EU-Turkey Global Business Bridges Initiative

Matchmaking Events

Mersin 07-08. 02. 2013

Antalya 20-23. 02. 2013

Alexandria 26-27. 05. 2013

Tunis 11-12. 06. 2013

Preface

The EU-Turkey Global Business Bridges initiative is an EU-financed initiative launched by the EU Delegation to Turkey and the Turkish Ministry of Economy in cooperation with the Union of Chambers and Commodity Exchanges of Turkey (TOBB). The initiative consists of EU-Turkey business partnerships on the third markets based on existing and potential synergies, particularly in the neighbouring countries, around economic and industrial objectives. It is expected to consolidate the economic ties between EU-Turkish businesses and investors while contributing to the industrial development of the selected third countries and leaving a positive impact on their reforms on the business environment. The initiative is based on a research study on the pilot cases of Egypt, Tunisia and the selected sectors of the Palestinian economy carried out by TEPAV in cooperation with IEMeD. The Istanbul Bridge-Building Conference took place on 1 October 2012 as the launching event of the initiative with the participation of above 100 people. The Conference brought together authorities and business people from the EU, Turkey, Egypt, Tunisia and the Palestinian Territories for the presentation of the study and discussions on the next steps.

The initiative is now followed by matchmaking events bringing EU and Turkish businesses together in Turkey and target-oriented matchmakings in the selected third countries (Egypt and Tunisia) jointly by EU-Turkish business teams in 2013. The first matchmaking event took place in Turkey. The matchmaking event on transportation and logistics was held on 7-8 February 2013 in Mersin, while the matchmaking event in all the other sectors take place in Antalya on 21-22 February 2013.

The final matchmaking events followed in Alexandria / Egypt (May 26-27, 2013) and Tunisia (June 11-12, 2013). This catalogue gives you all relevant information on participating companies who took part in the matchmaking in Tunis and also showed interest in the target countries Egypt, Tunisia, Palestine Authority, and EU.

Participating Industries

The participating companies come from the following industries, and for the purpose of simplicity the following “Industry ID”s are used after company names in this catalogue to indicate the industries that the companies operate in :
